- SAM office continues to enhance the SAM website as a place for members to go to keep current on issues and seek professional learning around the great number of topics they are responsible for.
SAM Associate Director has developed a Google sheet for each affiliate region showing current members and potential members. Affiliate leadership has used the Google sheet to make contacts to potential members moving us closer to the SAM membership goals.

SAM is using the Conference web pages to keep our members informed about all of the resources and materials developed at each conference throughout the year. A simple click on the Conference web page gives the reader access – MASS/MCASE Fall Conference 2016 is an example.

Each conference in 2016-17 will develop a twitter presence with ongoing dialogue being displayed at the conference registration table.

#SAMedchat is developed, underway, and takes place every Thursday from 7:00 – 8:00 pm for all administrators and other educators who wish to join. Check out the webpage to see training on “How to #SAMedchat”, review the transcript of past #SAMedchats and the schedule of upcoming #SAMedchats!

Follow SAM on Twitter - @MTEDLeadership.

The SAM webpages are continually updated to provide members and interested parties with contemporary information about SAM and our efforts in leadership, professional learning and advocacy!

SAM Board review of the strategic plan using the knowledge-based questions on 10/19/16 (see separate document) suggested pushing info via social media outlets and lead by example creating a new norm, as actions required to accomplish this objective.

Progress has been made on each of the above actions.

The SAM Board provided Input into Items that are Benefits (Value) of SAM Membership to be used for promoting current services and implementing new services.

#SAMedchat is being utilized by educators to share best practices and to dialogue about successful implementation of programs for student learning.

The SAM Executive Board approved moving forward with establishing the SAM LPLP 2017-18 with changes to clearly establish this professional development delivery system that is personalized to meet the needs of administrators interested in enhancing their leadership and improve their work for students.

Plans for the SAM Administrators Institute 2017 and MCEL 2017 are underway based on the findings of the SAM Needs Assessment Survey. The conference topics and agendas are targeted to meeting the professional learning needs of our members.

Thanks SAM board members and affiliate members for your leadership to accomplish the goals of the SAM Strategic Plan 2014-18 during 3rd Quarter 2016-17. Great progress on the SAM Strategic Plan results from the focus and the effort of our members to make a positive difference for the students of Montana!

Respectfully submitted,

Kirk J. Miller
