

SAM Legislative Tid Bits 12-7-18

The SAM Delegate Assembly Steering Committee met on Thursday to review our progress in preparing for the 2019 Legislative Session and discuss current bill drafts and their relationship to the SAM Advocacy Priorities. The [SAM Advocacy](#) webpage has been updated to include the [2019 Legislative Session](#) where all SAM activities before and during the session will be updated on a regular basis. The [SAM Followed Bills](#) has grown to 137 as of 12-5-18.

The formation of the SAM Legislative Network ([SAMLN19](#)) is nearly complete with affiliate region directors/presidents contacting members in their region to get them involved – please sign up if you haven't done so already - **we need you**. We are planning a webinar training for those participating in the SAMLN19 on January 3, 2019. For a SAM member to join the SAMLN19 click [HERE](#)!

We continue to work on bill drafts that are SAM action resolutions and have identified legislators to carry these bills. Reports on our specific progress will be uploaded to the [2019 Legislative Session](#) webpage on a regular basis, so check it out when you are able.
