

United States Senate

October 24, 2017

School Administrators of Montana
900 North Montana Avenue, Suite A-4
Helena, MT 59601

Dear Mr. Miller:

I write to invite the School Administrators of Montana to submit its tax reform priorities. Over the following months, Congress will begin the important work of deliberating and ultimately formulating a comprehensive tax reform plan, and I highly encourage your organization's input.

Meaningful tax reform has not occurred since 1986 when the global tax landscape was markedly different than today. The need for bold tax reform could not be more clear. In order to create jobs, raise wages, make the U.S. globally competitive and grow the economy, Congress needs to lower overall tax rates and provide tax relief for hardworking Montana families.

By updating the tax code to make it more simple, fair to middle class families and competitive with those of foreign countries, comprehensive tax reform will set Montana and our country on a pathway to economic prosperity. By allowing me the benefit of your membership's valuable and detailed input, I will be best prepared to fight for tax reform that will strengthen Montana's economy.

Please provide your scanned written response to Matthew Ketron on my staff at matthew_ketron@daines.senate.gov by Friday, November 3rd to ensure consideration of your priorities before the Senate acts on tax legislation. Thank you for your attention to this important matter.

Sincerely,

STEVE DAINES
United States Senator
