The following information was acquired from the online OPI Reporting Center and the OPI Growth and Enhancement of Montana Students (GEMS) Enrollment Report. It should be noted that GEMS Summary Enrollment Report is based on the previous school year's enrollment numbers from 2019-20. The OPI Reporting Center provided superintendent and school district supervisor positions as well as information on operating, non-operating and K-12 districts.

\*Please note: Full-time Equivalent (FTE) numbers may differ from OPI reporting due to assignment of administrative responsibilities that may differ from what districts reported. For example, if there was only one administrator for a district having an elementary school, a middle school and a high school, the assignment was as follows: 1/4 responsibilities to the superintendent, 1/4 responsibilities to the elementary principal, 1/4 responsibilities to the middle school principal, and 1/4 responsibilities to the high school principal. Also, it should be noted that 208 superintendent positions does not mean that Montana has 208 superintendents. For example, many superintendents cover both elementary and high school districts which count as two districts - 115 are counted as full time superintendents and 93 positions are counted as shared principal positions.
