SAM Positions Supporting Special Education Funding

SPECIAL EDUCATION ADMINISTRATIVE RULE MAKING

SAM supports state administrative rules for the Individuals with Disabilities Education Act (IDEA) that do not exceed the requirements in the federal laws and rules.

FEDERAL PROGRAMS

Federally funded programs should be written in language that ensures easy understanding, minimum paperwork, maximum student-to-teacher contact and interaction, and which allows for local districts to expend allocated funds on eligible students in a manner which they, the local districts, feel most beneficial. It is incumbent on local boards and their administrators to insure that the intent of federal programs is properly implemented and that programs are managed with fiscal and educational integrity.

To enable Montana schools to benefit from various sources of federal funding, SAM supports legislative efforts to pool applications and reporting requirements for receipt of these federal funds.

To ensure equitable funding to all Montana students, SAM supports formula grants instead of competitive grants. SAM will encourage our federal and state legislators to work to this end.

BE IT RESOLVED; that SAM urges the legislature and state officials to avoid state appropriations that may suggest discriminatory funding practices between special education and regular education; and

BE IT FURTHER RESOLVED, that SAM supports legislation to allow school districts to increase their budget caps to provide for the disproportionate costs associated with educating students with special needs; and

BE IT FINALLY RESOLVED, that SAM supports efforts to fully fund IDEA at its originally intended levels and to allow flexibility in maintenance of effort requirements.

Resolution #14-04 – FUNDING SPECIAL EDUCATION COOPERATIVE INFRASTRUCTURE

WHEREAS, a large majority of school districts, 81%, participate in special education cooperatives owing in a large part to a very sparsely distributed population; and

WHEREAS, increasing frequency, intensity, and investments of special education services require a robust cooperative infrastructure necessary to assure our students in rural schools equal access to special education services and quality education; and

**Resolution #15/17-01- SPECIAL EDUCATION FUNDING, CLOSING THE GAP [2017
LEGISLATIVE SESSION HJ 1]**

WHEREAS, review of recent legislative funding increases for K-12 education will clearly show there has been, and continues to be a significant “gap” between increases in revenue provided general education versus increases provided special education; and

WHEREAS, historically, state and federal legislative increases in funding for special education services have been infrequent and wholly inadequate. This lack of additional revenue places increasing pressure on districts to use local revenue to fund special education services; and

WHEREAS, because districts and cooperatives are receiving inadequate increases in special education revenue, the effect on districts includes reducing services to special education children placing districts at risk of failing to provide FAPE (Free Appropriate Public Education), places special education in the position of “competing” for local funding with general education, sports, and other activities, and places an increasing burden on local tax payers;

BE IT RESOLVED, that SAM will work with their educational partners, the Office of Public Instruction, Governor’s office, and the Congressional delegation to “close the gap” in funding increases for general education versus special education.

Resolution #16-07 – ADEQUATE FUNDING FOR MANDATED SPECIAL EDUCATION SERVICES

WHEREAS, IDEA, as federal law, mandates a free appropriate public education for children with disabilities, ages 3-21. (Title I, B, 612, a, 1, A) with provision for State level statutory language to limit services to children with disabilities ages 18-21 (Title 1, B, 612, a, 1, B, ii); and

WHEREAS, most Montana school districts limit attendance to age 19, mandated special education services in the State typically address the needs of children with disabilities ages 3-19; and

WHEREAS, inadequate State funding of mandated special education services negatively impacts the education of all students by effectively decreasing the amount of general funds available to support general education programming;

BE IT RESOLVED, that SAM will prioritize adequate funding of mandated special education services; and

BE IT FURTHER RESOLVED, that SAM will prioritize support of legislative action for statutory language that includes the special education appropriation in the group of education appropriations subject to the mandatory inflationary increase; and

BE IT FURTHER RESOLVED, that SAM will prioritize support of legislative action to increase monetary investment in Cooperative infrastructure without reducing payments for the Instructional Services Block Grant, Related Services Block Grant, and the Disproportionate Cost Reimbursement; and

BE IT FURTHER RESOLVED, that SAM recognizes proposals for new program entitlements for students outside the current age-range of State-funded educational programs may negatively impact funding consideration for mandated special education services; and

BE IT FINALLY RESOLVED, that SAM will prioritize support of legislative action for inflationary increases for special education and increased monetary investment in Cooperative infrastructure above advocacy efforts for new program entitlements for students outside the current age-range of State funded educational programs.
